LEADERSHIP ACCELERATOR**

# Supporting high schools teachers to strengthen civic learning among students

## Program Components

**Eight Days of Active Practice:** Two consecutive weeks structured around doing, not listening. Case discussions, leadership simulations, peer exchanges, and reflective exercises.

**Direct Access to Civic Leaders:** Engage with civic leaders who are navigating real policy challenges in real time, then bring those conversations back into the room.

**A Cohort Built for Honest Exchange:** Daily sessions will surface differences, not paper over them. You'll practice holding space for perspectives that challenge your own.

**Structured Support for What You're Building:** Peer feedback sessions and one-on-one facilitator consultation support your lesson plan development, so you're not designing alone.
