

Program Benefits

Grows Network

Build cross-sector relationships that outlast the program, creating accountability partnerships with labor, nonprofit, government, and technology leaders for ongoing sense-making as the AI landscape keeps shifting.

Enhances Work

Leave with a concrete action plan on how to lead the AI conversation in your own organization, backed by structured leadership tools.

Develops Skills

Lead with confidence on organizational AI decisions, using frameworks that help you tell which questions need technical expertise and which require leadership judgement.

Deepens Knowledge

Hear directly from researchers, policy experts, and engineers in structured conversations built around your questions.

Ideal Candidates

- ✓ Serve as a labor union, government/ public sector, nonprofit, or social sector leader making or influencing organizational decisions about AI adoption, bargaining, or policy.
- ✓ Live, work, or serve communities in the San Francisco Bay Area.
- ✓ Bring genuine curiosity and an open mind about both AI's potential and its risks.
- ✓ Want to build practical leadership judgment about AI. No technical background is needed.
- ✓ Commit to full participation in all six scheduled sessions (see program calendar for session dates and attendance policy).

**Leadership, ethics, and
adaptation in the digital age**

Building leadership judgment for the AI era

Program Components

Six full day sessions: Spaced every two to three weeks from March through June 2027. Between sessions, participants may be asked to complete tool exploration and guided self-reflection to build hands-on familiarity alongside conceptual fluency.

Applicable takeaways: Leave with the skills to lead the AI conversation in your own organization rather than just participate in it, backed by structured tools for high-stakes, cross-perspective discussions with your board, your membership, or your team, and a concrete action plan for bringing that conversation home.

Structured support: Every session pairs a short framework or concept with extended applied work: case analysis, small-group inquiry, structured debate, and open exploration with trusted voices from labor, government, technology, and policy who hold genuinely different views on AI.

A statement on neutrality: Coro California does not advocate for or against AI adoption, and we do not promote any vendor, product, or policy position. Every session brings together voices with genuinely different views, so you can test your thinking against the full range of perspectives and reach your own conclusions. Our commitment is to the quality of your judgement government, technology, and policy who hold genuinely different views on AI.

Benefits of Coro Training

Coro offers unparalleled expertise in leadership development with over 80 years of experience.

Experiential & Immersive

Hands-on activities merge theory with practice, build skills, and foster a growth mindset.

Cohort-Based

Connect with other Bay Area professionals from diverse backgrounds to learn their perspectives.

The Impact

Coro is widely considered the pioneer in civic leadership development programming.
